

XH-pitch timing belts have a 0.875" trapezoidal tooth pitch. They are used in heavy drives.  
XXH-pitch timing belts have a 1.250" trapezoidal tooth pitch. They are used in heavy drives.

When considering an XH-pitch in a new drive system, you might also consider a metric trapezoidal T-20 or AT-20 pitch. Both are made in polyurethane reinforced with steel.
